

Grazing Management (CSP Enhancements)
Colorado Enhancement Activity Job Sheet G-1

January 2005

Name:

Rotation of salt, mineral, and supplemental feeding areas

Payment = \$0.10 / Acre / Year for the pasture impacted by moving salt, mineral, and/or supplemental feeding areas in coordination with or as a part of a grazing management plan or, at a minimum, once a month or when there is 50% loss of vegetation from the feeding area.

Utilize the rotation of salt, mineral, and/or supplemental feeding areas to maintain vegetation of impacted areas. This tool is also being used to manage access to riparian areas and forage utilization to maximize production potential with minimal financial inputs.

Documentation Required: Use the following table for documentation and attach a plan map showing the location of management units involved in the decision support tool use. An example is provided to assist you.

Management Unit(s)	Reason for Move	Acres Treated	Date Moved
Field 9	Excessive traffic in salt and mineral area	1350	6/12/2004

Utilize Decision Support Tools to Aid in Grazing Plan Development Certification

I certify that I have applied the decision support tool described in the narrative for the field(s) listed in the Table above.

Name: _____

Date: _____
